

Senior Data Analyst

About Lightfoot

We are Lightfoot, a high-growth technology company based just outside Exeter that is trying to make a difference worldwide, one driver at a time.

We help businesses and private motorists improve performance and safety. Our technology has been proven to reduce fuel use and emissions rates by 10-20%, and at-fault accidents and wear and tear by 40-50%. All that from a clever little gadget made in the beautiful Devon countryside. Good, eh?

Our technology is pretty smart – it connects to your vehicle’s on-board computer and uses all of the live data it produces to analyse how efficiently you are driving. It’s similar to the way they analyse performance in Formula 1. Lightfoot turns all that data into simple feedback for you – the driver – so you know when you’re pushing your vehicle too far and can bring it back to maximum efficiency.

We are a growing business and have recently taken private-equity investment from the Business Growth Fund. We’ve moved into a brand-new, state-of-the-art office near Chudleigh (which was voted Exeter’s ‘Best Workspace’) and are excited to keep growing the Lightfoot family with like-minded, passionate individuals.

Job Outline

Lightfoot has a number of clients that continues to increase daily, with this comes a large amount of complex data and due to this, we are seeking Senior Data Analyst to join the team. The Senior Data Analyst is responsible for leading the team in analysing data to support the delivery of projects and solutions, and identify issues and opportunities, which will ultimately improve the way we work and bring value to our customers. The role will involve implementing and managing data warehouse(s), create system driven presentations & present data in a clear and engaging way for colleagues, stakeholders and customers, so it can be used to inform strategic decision making. It will also involve managing a Junior Data Analyst

The right candidate will be commitment to continuous improvement and passionate about delivering high quality work within a fast paced but highly exciting environment.

Roles & Responsibilities

- Build bespoke analytics and reports for business and customer needs
- Implement and manage data warehouse(s) with pipelines from multiple cloud-based sources
- Develop a customer reporting suite to provide insight to their driving data, fuel savings, etc.
- Quality Assurance checking reports completed by other members of the team
- Compiling and delivering on data requests received from clients
- Special/one-off reports, summarising data in a specified way as requested by the Company or client
- Manage the team effectively and conscientiously providing direction and developing skills and capability
- Continuous improvement of code in MySQL queries, Excel VBA and others as required
- Gather and manipulate data from a variety of sources, e.g. Excel, MySQL Databases, Salesforce
- Continuously seek ways to automate reports and opportunities to improve report presentation, including new metrics, in order to communicate insight in a clear, eye-catching manner

Desired qualifications, skills and experience

- Graduate in relevant discipline (e.g. Maths / Computer Science) or experience in similar role is **essential**
- Previous experience with data analytics using structured data is **essential**
- Proven Management skills is **essential**
- Previous experience analysing data is **essential**
- Use of data warehousing, data management, ETL using a platform such as Redshift or equivalent is **essential**
- Experience of MySQL / SQL scripts and databases is **desirable**
- Experience using Excel VBA is **essential**
- Experience using Python is **essential**
- Experience using PowerPoint is **essential**
- Experience of MySQL / SQL scripts and databases is **desirable**
- Design skills (charts / graphs / reports) are **desirable**
- Experience using Salesforce CRM is **desirable**

Personal characteristics

- Self-motivated and highly organised
- A quick learner
- A keen eye for detail
- Able to communicate confidently with all levels of staff within the business
- Driven to deliver results
- Love to solve problems/data/challenges
- Personable and outgoing, with a good sense of humour

Salary & Benefits

- £27,000 to £33,000 depending on experience
- Membership of employee bonus scheme
- 24 days leave entitlement plus Bank Holidays (pro rata) plus your birthday off
- Health and dental support
- Your own Lightfoot and associated benefits

Location

Chudleigh, Exeter
